"Growing Since '98"

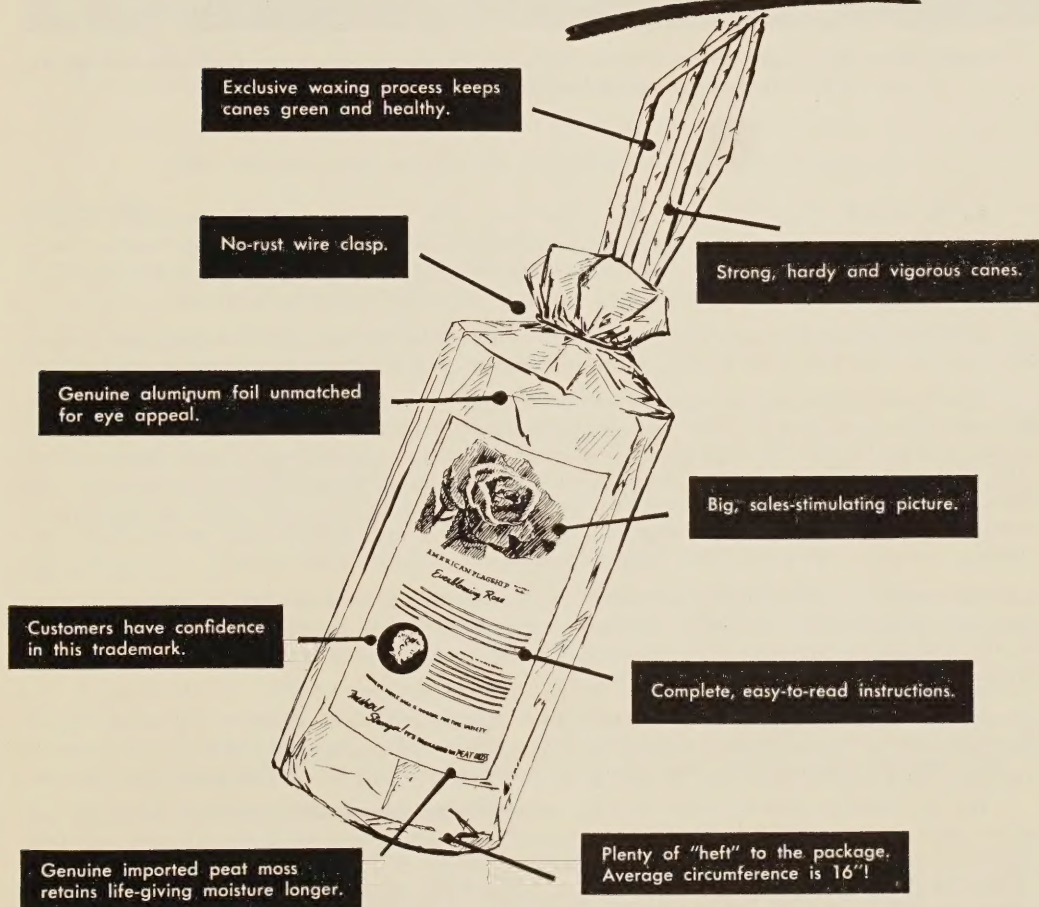

For any information on our products and services that you do not find in this catalogue, please contact us at Manchester, Connecticut. We have three separate telephone lines and a direct Western Union wire for your convenience.

Packaged Nursery Stock

This catalog contains information and prices for our bare root stock. In addition, C. R. Burr & Company has pioneered in the packaged nursery stock field, developing the most attractive packages on the market. You can choose from a complete and balanced list of roses, shrubs, fruits and ornamentals in varying price groups. All plants are root-wrapped in moist imported peat moss for maximum keeping quality while in transit and on sale. We will be glad to send you the complete list and any information you wish in addition. Just call or write us at Manchester, Connecticut. If you so desire, we will have our representative in your area visit with you for a discussion of your nursery stock requirements.

Reading from left to right - Peace, Mojave, Show Girl pictured in June in our California rose blocks at West Covina, California. Note the vigor and bloom.

C. R. BURR & COMPANY, INC., has been "Growing Since '98" a complete line of northern grown nursery stock, including evergreens, fruit trees, hedge plants, roses, shade trees, flowering trees and shrubs. We have 600 fertile acres under cultivation in the rich Connecticut Valley, famous for shade-grown tobacco and other agricultural crops.

This has been a good growing season, with rapid development once the unseasonal snows melted away. Our plants are well branched and sturdy, and should grade out moderately heavy.

We do not grow everything, but we do have an extensive selection of color and variety in nearly every category. There are 54 varieties in patented roses, including 1957 AARS award winners Golden Showers and White Bouquet, and recent winners Circus, Queen Elizabeth, Tiffany and Jiminy Cricket. In addition, we have 47 varieties of the favorite non-patented roses to choose from. In flowering shrubs we have a complete line, with such old favorites as Forsythia, Hydrangea, Mock Orange and Quince, and many of the newer introductions, including Forsythia Lynwood Gold, Dwarf Deutzia and Golden Mock Orange.

We expect an exceptionally fine crop of ornamental trees this year. The maples and flowering crabs are outstanding values and we have a good supply to start the season. In lesser supply, but still very good stock, are such popular trees as Paul's Scarlet Hawthorne, Prunus Kwanzan, Mountain Ash and Flowering Plum.

We will not have all of the evergreens we would like. Upright Taxus will be scarce in all varieties, but there will be good spreaders. Arbor Vitae will be beautiful. Plenty of moisture in the growing season and our usual practice of close shearing is producing good dense plants.

We are always glad to show visiting nurserymen around our farms and through our warehouses. It has proved to be our best form of advertising and we hope that you will find it possible to visit us. Our Main Office is nine miles East of Hartford, Conn., near Routes 6, 15 and 44. We will meet you at Hartford or Springfield, Mass., if you let us know when or where you will arrive. (See map on Index Page).

TERMS AND CONDITIONS OF SALE

C. R. Burr and Company is a member of the American Association of Nurserymen, the New England Nurserymen's Association, and the Connecticut Nurserymen's Association.

All of our stock is graded by standards of the American Association of Nurserymen.

All prices in this catalog are wholesale, and apply only to wholesale quantities as listed. They are based on present market conditions and may be changed without notice. Terms are F.O.B. Manchester, Connecticut. Prices are less 2% within 10 days, net 30 days. C.O.D. orders are to be accompanied by 25% of the amount of the order. Cash, security or references are required from unknown parties. Correspondents are requested to use their business letterhead to identify them as being entitled to wholesale prices.

Quantity Purchases . . .

We do not break bundles. To qualify for wholesale prices, all orders must be in 10 or multiples of 10 of a variety.

Purchases of 30 or more of one item entitle the purchaser to the 100 rate*.

Purchases of 300 or more of one item are at the 1000 rate.*

(*This does not apply to roses and evergreens which have special discounts)

Shipping . . .

We welcome our customer's instructions regarding shipping. In the absence of definite instructions we will use our own judgement, with the distinct understanding that our exercise of such judgement can not result in any liability by us.

A charge will be made for boxing and crating except when cash accompanies the order. Boxing and crating charges are made at cost.

Claims for shortages, unsatisfactory stock or for any cause whatsoever must be made in writing direct to C. R. Burr & Company, Inc., Manchester, Connecticut, **within ten days from the receipt of shipment.** Any shipment damaged by a transportation firm should be inspected by a representative of the carrier within 48 hours if damage is to be claimed.

Warranty . . .

All stock is warranted to be true to name, and at our option we will either replace or refund the purchase price of any item which is proved not to be the variety listed herein. No further warranty expressed, implied or statutory is made.

PLEASE NOTE—We accept all orders subject to crop conditions, and on condition that orders may be cancelled should injury befall our stock from hail, frost, error in count or other cause beyond our control. All orders are accepted without liability for non-performance if labor shortages or delay in transportation should prevent us from making delivery as specified.

Flowering Shrubs

Your shrubs from Burr's are cut back, transplanted, field grown plants, two, three and more years old. They are produced in the famed Connecticut Valley, renowned for its production of quality agricultural crops.

We welcome your inspection of these fine shrubs throughout the year, either in the field or in our storage. The plants are propagated from both hardwood and softwood cuttings and rooted in our own greenhouses. All plants propagated from softwood are individually potted and carried in cold frames from September to May before being planted out, and are grown on for two or three years. Plants propagated from hardwood are lined out under irrigation and carried from spring to fall, at which time they are placed in cold storage. The following spring the plants are lined out again and grown on for two or three years.

In the field the shrubs are grown in well spaced rows, fertilized and cultivated to the exact extent required to assure you a healthy, hardy, thrifty ornamental. All Burr shrubs are cut back in the field to develop a heavier branched top and a more vigorous root system.

***Buddleia, Ile de France.**

Rosy violet-purple. Grows 3 to 4 feet high.
18 to 24 in. \$5.00 \$45.00 \$400.00

Roses

You can choose a complete assortment from our list of 101 roses. There are 54 varieties of patented roses, including 1957 AARS winners Golden Showers and White Bouquet, and recent winners Circus, Queen Elizabeth, Tiffany and Jiminy Cricket. In addition, we have 47 varieties of the favorite non-patented roses to choose from.

These are all two-year field grown roses, budded on *Rosa multiflora Japonica*, the hardiest and least suckering of rose understocks. They are cultured and dusted by expert rose growers, then shipped and stored by methods known to keep them in perfect condition.

For the garden center desiring the finest packaged roses, nearly all of these varieties are available in the beautiful foil wraps described on page 1.

NOTE: On Non-patented Varieties . . .

Purchase of 30 or more qualifies for 100 rate.

Purchase of 250 or more qualifies for 1000 rate.

To qualify for above rates it is not necessary that all roses be of one variety.

Fruit Trees

Choice northern-grown fruit trees have been one of the featured items at Burr's for many years. As New England's largest fruit-tree growers, we are confident that your requirements will be satisfied here. All trees are grown by the most modern methods and all are graded to the standards of the American Association of Nurserymen.

The inspectors of the Massachusetts Fruit Growers Association are regularly employed to inspect Burr blocks of fruit trees for trueness-to-name.

Height and Caliper

Height given of fruit trees is approximate and represents average height of most varieties. Some small growing kinds may fall short of height specified as it is intended that the caliper shall govern.

APPLES

	100	1000
2 yr., 3-4 ft. $\frac{7}{16}$ -in. cal.	\$60.00	\$550.00
2-yr., 4 ft. and up, $\frac{9}{16}$ -in. cal.	75.00	700.00
2-yr., 4 $\frac{1}{2}$ ft. and up, $1\frac{1}{16}$ -in. cal.	85.00	800.00

↘ **Baldwin.** Large, bright red, crisp. Ships and keeps well.

↘ **Cortland.** Red; fine flavor. A month later than McIntosh.

↘ **Early McIntosh.** Has same characteristics as McIntosh but bears three to four weeks earlier.

↘ **Grimes Golden.** Golden yellow, tender fall apple.

↘ **Northern Spy.** Large, bright scarlet marked yellow. Rich flavor.

↘ **Red Astrachan.** The standard large red summer apple.

↘ **Red Delicious.** Large, solid, red. Excellent flavor.

↘ **Red Gravenstein.** Large, well colored; flesh slightly yellow. Summer.

↘ **Red Jonathan.** Rich red, juicy, firm. For cooking or eating raw. Late fall.

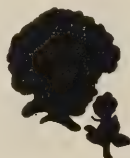

↘ **Red McIntosh.** Solid red. A heavy yielder. Fall.

↘ **Red Rome Beauty.** Bright red. Superior quality.

↘ **Red Spy.** Extra large fruit. Vigorous and hardy.

↘ **Red Stayman's Winesap.** Very large, red winter apple.

Ornamental Trees

The great increase in new housing has resulted in a very widespread demand for ornamental trees. It is our belief that this demand will continue to be strong for several years, and we feel that the ornamentals in our blocks at Ellington will prove profitable for you. They are grown in richly fertilized soil, spaced in wide rows and pruned to produce a desirable form. Our ornamentals have clean, straight trunks and well branched heads. We have many varieties available that have been scarce in recent years, particularly Norway and Schwedler maple.

ACER dasycarpum. Silver Maple.

A large, wide-spreading tree. Bright green leaves, silvery white underneath, turning pale yellow in the fall. Fine shade tree to 80 feet tall.

	10	
8 to 10 ft., 1 1/4" to 1 1/2" cal.....	\$27.50	
7 to 9 ft., 1 1/4" to 1 1/4" cal.....	22.50	
6 to 8 ft., 3/4" to 1" cal.....	17.50	

A. platanoides. Norway Maple.

Round, compact head and spreading branches. An excellent street or lawn tree reaching a height of 40 to 50 feet.

	10	100
*6 to 8 ft., 3/4" to 1".....	30.00	275.00
*8 to 10 ft., 1 1/4" to 1 1/4".....	38.50	350.00

NEW CORLISS EUONYMUS—PATENTED

Here is something new! . . . the broadleaf, evergreen beauty of Euonymus vegetus foliage especially developed into three shrub forms. These perfectly hardy plants make up into three forms, as listed, without support or special training. They will, however, respond to shearing if a slightly altered shape is desired. Here is more than a new variation of a familiar plant . . . these forms of Euonymus, because of their hardiness, will make the broadleafed evergreen shrub available for landscaping use where the climate prohibits such items as Azaleas, boxwood and holly.

Emerald Pride—Patent 1073

Neat, compact evergreen shrub of ovoid form, with an ultimate height of four feet and spread of about three and one half feet. Distinctly upright growth from one stem without support.

Emerald Charm—Patent 1079

Exceptionally compact specimen for upright narrow shape. Suitable for a pillar shrub, hedge, or pyramid. Ultimate height four to five feet, spread about 18 inches. Both this and Emerald Pride respond to shaping.

Emerald Cushion—Patent 1112

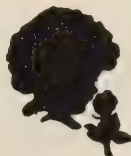

As its name implies, Cushion is the shortest of the family, adaptable as a ground cover or facing-down shrub. Very slow-growing, reaching an ultimate height of 18 inches.

PRICES: B&B
